MAYOR C. J. DE ROO

"WRONG TO DANCE."

Rev. Arthur Trott delivered an impressive sermon at the M. E. church Sunday night on the subject of dancing. He stated that "the modern dance is immoral and that it is injurious mentally, physically, morally and spiritually." He stated that the dances described in Scripture and the modern dance are far apart and that:

"Dancing would die of galloping consumption if the sexes were separated. Sex is the spirit of the dance, as alcohol is the spirit of intoxicating beverages. Let the men dance together and the women together, and this popular amusement will cease to exist. It is wrong for a Christian to dance because it is a worldly pursuit. If your conscience does not trouble you when you dance perhaps it needs repairing. Such a conscience should be taken to God for renovation and healing."

WOULD ALTER SEWERS.

At the council meeting Tuesday evening City Surveyor James Price submitted a plan to replace the sewer on Eighth street with a cement sewer 26x40 inches, which would take both the sewage and the storm water. It would cost about \$9,300 and deducting the sale price of the sewer pipe, about \$1,000, would bring the cost down to about \$8,300. Mr. Price stated that the sewage tank on Central avenue was in bad shape. A joint meeting of the council and board of public works was held last night to discuss the matter.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by Heber Walsh, Holland; Van Bree & Son, Zeeland.

ICE HOISTING DEVICE.

Arrangement to Help the Farmer in Putting Up a Small Quantity of Ice.

An arrangement to help the farmer in his ice harvest, sketched and described in the Ohio Farmer, is shown in the illustration. This device saves the labor of at least two men and enables the operator to avoid all the usual danger and inconvenience. The hoisting device is made by placing a pole through a hole cut in the ice so as to penetrate the soft bottom of stream or pond and allowing it to freeze fast. The pole is made sharp on bottom end so that it can be easily driven through the ice and into the mud. Another lighter and some-

LOADING ICE.

what longer pole is arranged to act as a lever by means of a rope or chain, as shown, or a clevis. The ice tongs are attached to large end of lever by a rope or chain, and a channel is cut in the ice in which the blocks of ice are floated up to the hoisting device and quickly and easily lifted to wagon or sled.

When cutting ice, the farmer should first take a measure of his icehouse and then endeavor to cut the cakes so that they will come out just right and fill the house both ways to where he wishes to leave space for sawdust. Cut cakes as large as convenient to handle, taking care to preserve the proper dimensions, as mentioned, and have each cake cut straight and plumb. Lay down a board and mark where to saw. For those putting away ice on a large scale the question of tools is important, but with a couple of pairs of tongs and an ordinary crosscut saw the balance of the outfit can be dispensed with by the farmer who wishes only enough ice for his own use.

THE "AFTER" MILKING.

A Progressive Danish Idea—Manipulation of the Udder.

The degree of productive activity in the udder represents the milk profit in a cow. That the amount of milk secured depends to some extent on skillful milking has long been recognized. Now the scientists go a step further and recommend a systematic manipulation of the udder after the ordinary milking to increase the milk production. At the Wisconsin station a practical test has been made of this interesting theory of manipulation as well as of the efficacy of thorough milking.

From a summary of results given by Professor Noel in bulletin No. 96 it appears that there was in this experiment a considerable and daily gain from manipulation and that this gain was maintained all through the period of lactation.

Aside also from manipulation, which is not always practicable for the ordinary dairyman, the difference in work done by different milkers is brought out strongly. In several cases one milker did his work so much better than the others in the same herd as to be worth nearly \$10 a month more to the owner on account of the larger yields of milk and fat which he obtained.

In the university herd the average daily production of milk from twenty-four cows was increased through manipulation by 4.5 per cent (range 3.0—30.2 per cent for individual cows) as the result of a milking experiment continued for four weeks, the average gain in milk being a pound and in fat .09 pound per head per day.

The largest amount of milk obtained from a cow by the manipulation method after the regular milking was done was 5.5 pounds per day and the lowest .20 pound. The corresponding figures for fat production were .64 and .02 pounds. The former figure is considerably above the average total daily production of cows in this or other states.

The greater portion of the gains obtained came through lack of care on the part of the regular milkers, as the cows were not milked perfectly clean. But even in herds where the milkers did their work well there were always one or more cows which gave an increase of nearly a pound of milk and one-tenth of a pound of butter fat by the manipulation method.

The milk obtained by the manipulation method is similar in composition to that of "strippings." On the average for all herds it contained 10.32 per cent fat and was found to be about two and one-half times richer than the ordinary milk. The highest per cent of fat found in the after milking from any one cow was 23 per cent and from any one herd 14.41 per cent.

Professor Noel says that within a year or two dairy teachers in Denmark have worked out the idea of manipulation into two systems. The Hegeland system is taught in the dairy schools of the country and adopted by many progressive dairymen. It is the system tested in Wisconsin. Another set of manipulations is that of Soondergaard.

The American Apple Growers' association will concern itself mostly with the business end of the industry—viz, the disposal of the crop and its products.

NEWS OF THE STATE.

Telegraphic Reports of Matters of General Interest to Our Readers.

MICHIGAN HAPPENINGS BY WIRE

Items Prepared with Special Care for the Convenience of Our Own Readers.

Detroit, April 7.—The Republicans of Michigan elected their state ticket by a majority estimated between 35,000 and 40,000, the ticket being: For justice of the supreme court, Judge Frank A. Hooker, of Charlotte; regents of the State university—Peter White, of Marquette, and Loyal E. Knappen, of Grand Rapids. The vote throughout the state, excepting where local issues lent interest to the fight, was light.

In Detroit an unusually light vote was cast. The only municipal officers elected were a police justice and eight school inspectors. Justice Sellers, Republican, the present incumbent, was re-elected by a large majority and the Republicans elected six of the inspectors. In Wayne county the Republicans re-elected Auditor Purit and Circuit Judge Mandill, and Hooker carried the county by some hundreds. The proposition to bond the city to maintain a Carnegie library was lost 6,900 to 8,338.

Local issues determined the results in most of the smaller cities in the state. At Battle Creek the Socialist party had made a strong campaign, but a Republican was elected. The Socialists elected two aldermen, giving them four in the present council. At Escanaba the Independent Labor party's candidate, J. J. Sourwein, was elected mayor. J. R. Santo, citizens' candidate for mayor at Traverse City, was elected, the rest of the offices going to the Republicans. The Democrats gained considerable of the council at Marshall, and re-elected Mayor F. M. Motte by an increased majority. For the first time in ten years the Democrats swept the city at Muskegon and elected their city ticket. The proposition to consolidate Bay City and West Bay City was defeated by a small adverse majority in the latter city.

Jackson, Mich., April 7.—The Republican state ticket won here by pluralities from 100 to 150, the larger figure being for the re-election of Judge Frank A. Hooker to the supreme court.

Grand Rapids, Mich., April 7.—The Republicans elected their entire city ticket in this city and gave the Republican state ticket between 1,600 and 2,000 plurality.

Saginaw, Mich., April 7.—The Democrats elected their candidates for recorder and justice of the peace by from 75 to 100 plurality. The Republican state ticket in Saginaw county will have a plurality estimated at from 300 to 500.

Kalamazoo, Mich., April 7.—This city gives the Republican candidates on the state ticket about 300 plurality.

Bay City, Mich., April 7.—This city gave a majority of 800 to the Republican state ticket and elected the entire Republican city ticket by from 450 to 800 majority.

Houghton, Mich., April 7.—The Republican state ticket won by about 2,500 majority.

Sault Ste. Marie, Mich., April 7.—The Democrats make heavy gains over previous years, electing a mayor, a treasurer and two aldermen. The Republicans elect two aldermen. The Republican state ticket received a majority of 300 votes in Sault Ste. Marie.

Marquette, Mich., April 7.—The Republican state ticket carried in Marquette county by a majority of 2,000. The total vote was 5,500. Greene, People's party, was elected mayor of Marquette.

Will Confer on the Mine Trouble.

Bay City, Mich., April 3.—As the result of a joint conference held at Indianapolis between representatives of the Michigan operators and miners and President Mitchell, of the U. M. DRENTHE.

We have no reason to complain. The children are all doing well; some are not present, but the reason is because mumps is swaying her scepter. We indeed feel sorry that we had to lose three of our scholars, namely Allie Clara and Minnie Nykamp. This year there have been no tardies as yet. Jennie D. Kok has not missed one day since last September. The newly enrolled are Allie Mast, Alberta Marling and Eddie Nykamp. The following have not been absent during March: Johnny and Bert Roelofs, Dick Roelofs, Johanna, Mary and Johnny De Haan, Jennie Kok, Johnny Van De Kolk, Hattie Van De Kolk and Henry Moes. You Have Seen

Dr. Caldwell's Syrup Pepsin advertised for months, but have you ever tried it? If not, you do not know what an ideal stomach remedy it is. A 50c bottle will show you its great merits as a cure for constipation, indigestion and sick headache. At Heber Walsh.

Oh! Oh! Oh! By this time the milk pail had been whirled into the hay mow. "Come Henry, help, quick, gun, milkrobber!" The tripod could now be seen flying against the beams of the barn twenty feet high. A moment more and out of the barn came dashing at full speed the frightened milkmaid, not stopping until a place of safety had been found. All were astir by this time. Upon close investigation it was found that Joseph Honey, a well known peddler, had procured a sleeping place in the manger of Henry Dozeman's barn, and was discovered by Maggie when she went milking, and consequently the screams. Joseph never moved until all excitement was over, when he willfully apologized.

Never Out of Season.

There is no time in the year when Dr. Caldwell's Syrup Pepsin is not a benefit to mankind. It cures constipation and indigestion, and cures diarrhoea caused by bad condition of the digestive organs. In 50 cent and \$1.00 sizes at Heber Walsh.

A few facts

Longfellow could take a worthless sheet of paper, write a poem on it, and make it worth \$5,000. That's genius.

J. P. Morgan can write a few words on a sheet of paper and make it worth \$1,000,000. That's capital.

A mechanic can take a pound of steel, work it into watch springs, and make it worth \$800. That's skill.

A merchant can take an article worth \$1.50 and sell it for \$2.00. That's business.

Your wife can buy a coat for \$10, but prefers one that costs \$50. That's natural.

There may be millers who will tell you that they make better flour than we do. That's ridiculous.

We don't claim to be the only clothing store in Grand Rapids—we know we're not the only IT—there are many other good stores, in fact.

What we do claim is that we are always, invariably, at the head of the whole procession—a very worthy procession it is, too, but you know and we know and nearly everyone knows that THE GIANT is the leader.

We are not always harping on how cheap we sell but what we do say is that for the same money you can do the best here.

Deaths of Indians on the Battle-Field of Shiloh, fought Forty-One Years Ago.

Pittsburg Landing, Tenn., April 7.—Forty-one years ago two rival hosts met in the woods and fields round about a church called "Shiloh," and contended for two days as to which should have the victory. General Grant commanded one army and Albert S. Johnson (who died in the fight) the other. On the first day it looked gloomy for the Union forces, but on the second victory crowned their efforts.

So Forty-one years later came the veterans—some of them—who fought on that day to put up memorials to tell coming generations what deeds were done on those two days, and Indiana whose troops have a gallant part in the engagement, has dedicated twenty-two. Among those attending the exercises were: Governor Durbin, W. C. Sanger, assistant secretary of war; General Lew Wallace, Senator Beveridge (the orator of the day), and James Whitcomb Riley, the poet, who recited "Old Glory."

General Lew Wallace presided and said the surprise on the first day of the fight was needless. He also said later, and expressed anger at the same, that the national park commission's blue prints were wrong in the assignment of a position to Sherman's troops, declaring that he held that position himself. With the Indiana party on the field was Miss Nellie Grant, granddaughter of the "old commander."

ANNIHILATION TO FORTY-ONE Ship Blows Up at Sea, Her Cargo of 95,000 Pounds of Gunpowder Having Exploded.

London, April 6.—It is believed that the steamer Bambara, on her first trip from Marseilles to Dakar, French West Africa, with a cargo of 95,000 pounds of gunpowder and two cases of dynamite, has been blown up at sea. The Bambara has not been reported from Gibraltar, although she should have been sighted there March 31.

The captain of the French schooner Assomption, of Marseilles, reports that on March 28, when sixty miles off Ile du Palmier, he saw a brilliant flash of light which was followed by a loud explosion. The captain of the Nina makes a similar report. The crew of the Bambara numbered thirty-five men, and she carried six passengers.

Great Strike in Holland.

Amsterdam, April 7.—At midnight a meeting of the workmen's committee proclaimed a general strike throughout Holland of all labor engaged in transportation both by land and water. All the railroad lines, stations and wharves are guarded by troops.

The administration of the railroads has taken steps to secure the running of the foreign expresses under military protection. A workman was wounded by a revolver shot fired by a soldier. The man, who was walking on the railroad, was not aware that the strike had been proclaimed, and failed to reply to the soldier's challenge.

Death of a Noted Naturalist.

St. Paul, Minn., April 7.—Henry Schroeder, a pioneer taxonomist and naturalist of the northwest, died suddenly in his museum, 158 West Third street. Old age, coupled with a general breakdown in health caused death. He was 78 years of age, and for over 40 years was a resident of St. Paul. The Schroeder museum contains a specimen of nearly every North American bird and beast, besides hundreds of Indian relics and curiosities from distant lands.

Divorced Baroness Kills Herself.

New York, April 7.—Baroness Wolfbauer, a granddaughter of the famous Bishop Ames of the Methodist church and daughter of a United States army captain, committed suicide by shooting in a hotel at Jersey City, N. J. The baroness, who was also known as Mrs. Louise Ames Van Weik-Wolfbauer, was recently divorced from Baron Wolfbauer, an Austrian, in South Dakota, where she resided from October last up to two weeks ago.

Killed a "Peeping Tom."

Akron, O., April 7.—Mrs. Susan Updike was placed in jail here charged with causing the death of Andrew Fasnacht. Mrs. Updike confessed to the killing saying that Fasnacht was playing the part of a "peeping Tom" at her home and she hit him in the head with a club, fracturing his skull. The man was killed Saturday night, and the body lay in the yard of Mrs. Updike's home till Sunday afternoon before it was discovered.

Philippine Sentenced to Death.

Manila, April 6.—Col. Julian Santos, the former aide-de-camp of the late Gen. San Miguel, who participated in San Miguel's operations and was captured over a month ago by Gov. Daniel Rizard of Rizal province, personally, has been found guilty at Pasig, before Judge Crossfield of brigandage, abduction and disarming the police at Novaliches and was sentenced to death. The case will be appealed.

Kaiser Sails for Copenhagen.

Kiel, April 3.—Emperor William embarked on the imperial yacht Hohenzollern, and, accompanied by German cruiser Nympha and the Danish cruiser Sleipner, sailed for Copenhagen, amid salutes from the warships.

Veteran Lawyer Passes.

Chicago, April 7.—B. F. Ayer, for the last twenty-five years general counsel for the Illinois Central Railway company, is dead of pneumonia. He was 78 years old.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boechee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at any drug store. Price 25c and 75c. G. G. GREEN, Woodbury, New Jersey.

DEFEAT FOR INGALLS

Fleischmann Re-Elected Mayor of Cincinnati Over Railroad President.

DEMOCRATS WIN IN CLEVELAND

Republican State Ticket Carried in Michigan by Pluralities Ranging from 35,000 to 40,000.

Chicago, April 7.—Elections of mayor and other city officials were held in Ohio, Michigan, North Dakota, and in some towns in Iowa. The greatest interest centered in the Ohio contests, because of the standing, nationally, that state holds. Changes there always are considered of great importance as an index of the political tide of the nation. While local problems were prominent factors in a number of cities, much of the campaigning was done on questions of national policy.

One of the hottest contests of the day was the one at Cincinnati, O., where Julius Fleischmann, Republican, and many times a millionaire, was elected by a majority of at least 17,000 over M. E. Ingalls, president of the Big Four railroad. All other candidates on the Republican ticket also won by big majorities.

Lines Drawn on Governorship.

This victory of Fleischmann makes him a formidable man for the Republican nomination for governor, as the strength he has shown will give him a leading place in the councils of the party. It is possible that Mayor Tom L. Johnson of Cleveland, re-elected will be the Democrats' choice for state executive, as he undoubtedly is the strongest man the party can find.

In Cleveland, Mayor Johnson carried through with him probably all of the Democratic ticket. Johnson claims a plurality of 6,000.

In Toledo, O., Sam Jones, running on a non-partisan ticket, was re-elected mayor, but all except one of the other Republican candidates won, despite recent claims by the Democrats that they would carry the city.

State Election in Michigan.

In Michigan the Republican state ticket was elected by pluralities ranging from 35,000 to 40,000, the officers elected being Frank A. Hooker, justice of the supreme court, and Peter White and Loyal E. Knappen, regents of the state university.

The municipal elections in Michigan present some unique features. At Battle Creek the Socialists made so strong a campaign that the Democrats withdrew their own ticket and united with the Republicans against the Socialistic ticket. The Roman Catholics were especially active, spurred by Pope Leo's recent encyclical against socialism. As it was the Socialists elected two aldermen, and several minor officials. The Socialists were also strong at Jackson. Other municipal elections were, as usual, mixed, local issues interfering with party lines.

Some of the Results.

At Saint Ste Marie the Democrats elected the mayor, treasurer and two aldermen. The Republican state ticket, however, received a majority of 300 votes. For the first time in four years the entire Democratic city ticket was elected in St. Joseph on a reform platform, with a pledge that Chief of Police Morton be removed. Kalamazoo gave the Republican candidates on the state ticket about 300 plurality. Bay City gave a majority of 800 to the Republican state ticket and elected the entire Republican ticket by from 450 to 800 majority.

At Benton Harbor for the first time in fifteen years the entire Republican ticket was elected. In Marquette Green, People's party candidate, was elected mayor, but the county went Republican. At Grand Rapids, the Republicans elected their entire city ticket.

Here Most Is Free Again.

New York, April 7.—After serving a year's imprisonment on Blackwell's island, less about two months' commutation of sentence for good behavior, John Most, the anarchist, has been released. Most was convicted for publication in his paper, Freiheit, on the day President McKinley was shot, of an article with the caption "Murder and Murder," which was held by the courts to endanger the public peace in that it was an incitement to the murder of rulers.

Fatal Winstorm in Wisconsin.

Appleton, Wis., April 7.—One fatality and considerable loss of property resulted from a windstorm which visited this vicinity. Percy M. Clark, civil engineer of the Chicago and Northwestern railway, was struck by a falling tree and killed, about thirty miles north of Appleton. Property losses throughout the county will aggregate several thousand dollars.

Death of a Leading Journalist.

Amsterdam, N. Y., April 7.—William P. Beldan, for 20 years one of the leading journalists and Republican politicians of the Mohawk valley, died suddenly of apoplexy at Albany, where he was deputy senate clerk. He graduated from Yale and was one of the founders of the Yale News. He was 47 years of age.

Ambassador Porter Bereaved.

Paris, April 7.—Mrs. Horace Porter, wife of the American ambassador here, died suddenly here. Her death occurred at 5 o'clock in the afternoon, of congestion, following a chill. The ambassador is completely prostrated.

AMERICA'S WAY A GOOD WAY TO BRING UP GIRLS

By Mrs. HALL CAINE, Wife of the Famous Manx Novelist

THE AMERICAN WAY OF BRINGING UP GIRLS TENDS TO MAKE THEM MORE MORAL THAN THE ENGLISH WAY.

I've often heard English people say of American children that the great mistake in their bringing up is that they are too soon let out of the nursery.

I don't think that comment is justified because IN AMERICA THERE DOESN'T SEEM TO BE ANY NURSERY.

Little girls of fifteen and sixteen I see about in quite grownup gowns and with their hair put up. They are not "out," I am told, and yet they certainly seem to go about quite as much as if they were. In England girls of that age stay all day in the nursery and only come in for dessert. Their hair is down their backs too. I like the American way. I think it is the best way possible to bring up girls. I believe that freedom is the best possible thing in a family where breeding and culture are in the very air the girl breathes. IT IS FREEDOM OF THOUGHT AND EXPRESSION WHICH IS GOING TO MAKE HER BRILLIANT AND ORIGINAL AND STRONG MENTALLY AND MORALLY.

I admit that this early mingling of American girls with grown-up people does come in evidence sometimes in a most startling way. I mean the freedom of expression of American girls when they are talking with men.

When I was here seven years ago, I heard a young girl on ship-board say to a young physician, "Oh, doctor, if you can get me a file of papers now, I'm yours for life." I was aghast at the phrase then. And once I heard a fascinating little girl turn to a man of her party and, apropos of some story of domestic infelicity, remark, "Billy, when we are married, I'll never allow you to act like that." Afterward I observed to her aunt that she was very young to be engaged. "Oh, dear me!" exclaimed the aunt. "Why, the child isn't engaged unless it has occurred since breakfast."

STILL, WHAT I BELIEVE IS THAT THIS INFORMALITY OF SPEECH IS SIMPLY INFORMALITY OF SPEECH AND STANDS FOR NOTHING ELSE. INDEED, I THINK IT IS A SAFEGUARD AGAINST ALL THE THINGS WHICH, ACCORDING TO THE ENGLISH WAY OF THINKING, IT ENDANGERS.

STILL AN EYE FOR AN EYE, A TOOTH FOR A TOOTH

By SAMUEL J. BARROWS, Secretary of the New York Prison Society

IT is a curious fact that while the science of surgery has made remarkable advance in modern times and effected an enormous saving in human life THE DEPARTMENT OF CRIMINAL LAW, WHICH DEALS WITH THE MORALLY DISEASED AND THE SOCIALLY UNFIT, HAS NEVER

BECOME A SCIENCE AT ALL, but is still engaged in applying the mythological medicaments and the legal poultices of a remote age. It is true that we have abandoned certain forms of punishment, but we have not abandoned the penal idea that created them.

TWO THOUSAND YEARS AGO JESUS CHRIST SET ASIDE THE ANCIENT DOCTRINE OF AN EYE FOR AN EYE AND A TOOTH FOR A TOOTH, BUT THIS DOCTRINE STILL FURNISHES THE BASIS OF OUR CRIMINAL LAW.

Criminal codes are simply a catalogue of prohibitions with a certain amount of suffering in the shape of penalty attached to each of them. THE CODE DEALS WITH THE OFFENSE RATHER THAN WITH THE OFFENDER.

THE MORO SLAVES WILL YET BE FREE

By ELIHU ROOT, Secretary of War

NOW that the insurrection has been disposed of, we shall be able to turn our attention not merely to the slave trade, but to the already existing slavery among the Moros. WE CANNOT IMMEDIATELY FREE THE SLAVES BY A SINGLE ACT, FIRST, BECAUSE IT WOULD REQUIRE A WAR OF EXTERMINATION in which a large part of the slaves would probably be found fighting against us, and, second, because a large part of them would have nowhere to go and no way to live if deprived of the protection and support of their present masters.

I BELIEVE, HOWEVER, THAT WE CAN MAINTAIN A PROCESS OF GRADUAL AND STEADY REDUCTION, RESULTING ULTIMATELY IN THE EXTINCTION OF THE PRACTICE OF SLAVERY.

Some of the results of our efforts in that direction are stated in my last report. The process will be slow and will require patience and good judgment, but I believe the result will be worth the trouble. THE TASK OF IMPROVING THE MOROS IS BY NO MEANS HOPELESS.

OUR TRUSTS WILL SOON BE POPULAR

By E. P. SAVAGE, Governor of Nebraska

PEOPLE ARE DENOUNCING THE TRUSTS JUST AS THEY DID THE INTRODUCTION OF ALMOST EVERY INVENTION THAT HAS ENABLED MANUFACTURERS AND PRODUCERS TO KEEP UP WITH THE DEMANDS OF TRADE.

No one intends to return to the conditions that prevailed before the advent of electric cars, nailmaking machines, typesetting machines and other labor saving inventions.

TRUSTS WILL IN A SHORT TIME BE SO POPULAR THAT WE WILL BE AS LOATH TO GIVE THEM UP AS WE ARE TO GIVE UP OUR LABOR SAVING INVENTIONS.

SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu."
